SUMMARY OF INVESTIGATION

1-1 On 5 Sep 06, AFOSI received notification VICTIM went missing during an off-base trip in Bishkek, Kyrgyzstan (KG). On 5 Sep 06, at approximately 1600 hours, VICTIM arrived with five other military members at the Tsum shopping mall in Bishkek, KG. The group separated with plans to reconvene at 1715 hours; however, VICTIM never arrived at the rendezvous point. VICTIM was last seen at 1615 hours by a co-worker, TSgt NORMA BARNES, who was initially paired up with her, but then separated from one another to shop on different floors of the mall.

Between 5 Sep 06 and 9 Sep 06, AFOSI conducted numerous investigative actions, to include interviews, area canvassing and reviews of surveillance videos, in an attempt to locate VICTIM. On 9 Sep 06, at approximately 0100 hours, VICTIM was recovered after she knocked on a door at a residence in Kant, KG, and requested help. Local police took VICTIM to a hospital in Kant, KG, where AFOSI and USAF medical personnel recovered her. VICTIM was transported to Manas AB, KG, for medical evaluation.

VICTIM was airlifted to Bagram AB, Afghanistan and then to Landstuhl AB, Germany, further medical evaluation.

Over a course of several interviews, VICTIM stated after exiting the Tsum, a woman (SUBJECT 1) locked arms with her, put something in her rear left pants pocket, and handed her a note (written in English) giving her instructions on where to walk and telling her there was a bomb in her pocket. VICTIM complied with the instructions and was led away from the Tsum; VICTIM was subsequently pulled into a white van with two other males (SUBJECTs 2 and 3). SUBJECTs then drove VICTIM to multiple locations, stopping at one point and forced VICTIM at gunpoint to cut and dye her hair. Ultimately they arrived at a two-room dwelling where she was held for three days. During her third day of captivity, VICTIM escaped [REDACTED] stabbed him with a wooded stick she had sharpened. VICTIM traveled on foot until she came to a neighborhood in Kant, KG, where she was recovered.

AFOSI agents interviewed [REDACTED] Bishkek, KG, who related approximately a month prior to VICTIM's kidnapping, she had a confrontation with a few individuals known to be members of organized crime operating in Bishkek, which resulted in one of the members physically assaulting her in the casino. As a result, [REDACTED] fired two members of the casino security staff for not intervening. One of the fired casino security members threatened to harm her as a result of being fired. The Director of Operations for [REDACTED] Casino [REDACTED] opined that, based upon the threats made to [REDACTED], VICTIM's abduction may have been a case of mistaken identity, with [REDACTED] as the intended target. [REDACTED] stated a former employee may have wanted to "make a statement" to the casino because they fired him. [REDACTED] relayed [REDACTED] fit the same general physical description as VICTIM and carried the same type of large shoulder bag.

The Federal Bureau of Investigations (FBI) sought approval to take VICTIM back to KG to retrace her escape route, but was denied by the United States Ambassador (USAMB) to KG. Subsequently, the FBI officially closed their investigation on 15 July [REDACTED]. On 24 Mar 11, the Assistant United States Attorney's (AUSA) Office closed their case due to no SUBJECTs being identified and no motive solidified. On 20 Jul 11, AFOSI assumed the lead investigative role in attempt to resolve the investigation.

A confidential source (CS), who had direct knowledge of daily operations at the [REDACTED] Casino and kept records of significant incidents at the casino as part of his duties, stated he observed [REDACTED], Chief of Security at [REDACTED] Casino, and [REDACTED], Chief of Surveillance at [REDACTED]

UNCLASSIFIED//FOUO

Casino, come into the [REDACTED] Casino on 30 Aug 06, to sign termination letters as a result of being fired. [REDACTED] arrived first, signed his termination letter without incident and went outside to wait for [REDACTED]. [REDACTED] also signed his termination letter and threatened [REDACTED] with future physical harm. [REDACTED] then left and met [REDACTED] outside. [REDACTED] told CS she was going to move into the Hyatt Hotel for safety purposes. The Hyatt Hotel is located across the street from the Tsum, and the [REDACTED] Casino is located on the first floor of the hotel. CS provided agents with photographs of [REDACTED], [REDACTED], [REDACTED], and [REDACTED]. A review of the provided photographs revealed the resemblance between [REDACTED] and VICTIM, as well as the resemblance between [REDACTED] and [REDACTED] were significant based upon body type, weight, hair, and facial features. CS also stated both [REDACTED] and [REDACTED] were British Nationals who regularly shopped at the Tsum. According to VICTIM, she believed her captors thought she was a British national.

CS related that on 5 Sep 06 (day of VICTIM's abduction), at approximately 0930 hours, he observed [REDACTED] sitting in the lounge of the Hyatt Hotel with a group of unknown individuals. At approximately 1000 hours, [REDACTED] joined [REDACTED] and the group of people. Both [REDACTED] and [REDACTED] went outside to the parking lot for approximately 30 minutes before returning to the lounge. It appeared to CS that [REDACTED] and [REDACTED] were trying to intimidate [REDACTED], as she was inside the Hyatt that morning. [REDACTED], [REDACTED] and the group eventually left the Hyatt Hotel without saying anything to [REDACTED].

A review of surveillance footage from the Tsum identified an unidentified male who appeared to follow VICTIM on multiple floors of the mall. At one point, the unidentified male seemed to be waiting at the bottom of the 1st floor escalator as VICTIM was traveling down it. At the base of the escalator, the male appeared to have made physical contact to VICTIM's back as she walked by. The male was then observed awkwardly standing near the exit VICTIM was last seen leaving. As VICTIM exited the Tsum, an unidentified female appeared to follow her outside. The unidentified male then looked as if he followed TSgt BARNES on several floors of the Tsum before she exited. Before the unidentified male departed the mall, he met up with a group of approximately five other males. They talk briefly and then the unidentified male departed the mall through the same exit VICTIM exited. The unidentified male was identified by [REDACTED] as a low-level gambler who frequented the Xanadu Casino, but she did not know his name.

AFOSI conducted a photo line-up with VICTIM, which contained photographs of [REDACTED], [REDACTED], and the unidentified male and female from the surveillance footage. VICTIM was unable to identify any of the individuals as her abductors.

Analysis of VICTIM's clothing uncovered a circular stain on the back left pocket of the jeans VICTIM was wearing at the time of her abduction. The analysis did not disclose the presence of explosive residue. Additionally, AFOSI conducted analysis of satellite imagery of the area surrounding the home in Kant, KG, where VICTIM was found. Details of the landscape and infrastructure were consistent with information provided by VICTIM during a cognitive interview in describing her movements following her escape.

NARRATIVE

Background

2-1 At approximately 1830 hours on 5 Sep 06, TSgt NORMA D. BARNES, 376th Expeditionary Mission Support Group (EMSG), Manas Air Base (MAB), Kyrgyzstan (KG), informed AFOSI Expeditionary Detachment (EDET) 2404, MAB, KG, agents she could not locate VICTIM after their shopping trip at Tsum Shopping Center, Bishkek, KG.

Note: The contents of this report contain only AFOSI associated investigative activity.

Interviews

2-2 VICTIM

Date/Place: 9 Sep 06/Manas AB, KG

Agent(s): SA [redacted], AFOSI EDET 2404, MAB, KG

During her interview, VICTIM provided the following information: she and five subordinates planned to travel off base to the Tsum shopping center in Bishkek, KG, to shop for approximately an hour and then travel to the 12 Chimneys restaurant, approximately 45 minutes from the Tsum shopping center. VICTIM and her subordinates planned to eat their last meal together before they all redeployed to the US to different locations. VICTIM brought gifts to present to each of them and the gifts were in the van when she disappeared. VICTIM hired a van and driver to take them shopping then to the restaurant. VICTIM agreed to pay for the trip herself. Base personnel often hired the van and driver to take military members stationed at MAB, KG, on off base recreation (OBR) trips. They planned to depart MAB, KG, at 1500 hours but were delayed and departed shortly before 1600 hours. They arrived at the Tsum at approximately 1615 hours and exited the van. VICTIM and BARNES went directly into the Tsum while the others went to the Hyatt Hotel to exchange currency. VICTIM and BARNES went to the second floor where VICTIM bought earrings and BARNES wanted to look at purses. VICTIM told BARNES she was going to the fourth floor to purchase some items, and BARNES agreed to meet her there in 15 minutes. As VICTIM went upstairs she remembered there was a Boardwalk sale taking place outside of the Tsum. On her way outside, VICTIM stopped at a cosmetic counter, bought lipstick, and applied the lipstick as she walked out the front door of the Tsum. She then placed the lipstick in her purse. While VICTIM was outside a female of approximately 40 years of age (SUBJECT 1) approached VICTIM from behind and to her left. SUBJECT 1 interlocked arms with VICTIM while simultaneously placing a small object in VICTIM's back pocket. SUBJECT 1 gave her a note stating "You have a bomb, do exactly as I say or boom!" SUBJECT 1 took VICTIM's cell phone from her purse. The note instructed VICTIM to purchase a dress, scarf, and black hair dye and then quickly walk to the street. VICTIM offered SUBJECT 1 her purse but SUBJECT 1 shook her head and walked away. VICTIM did not see SUBJECT 1 when she purchased the items at the Boardwalk sale.

SUBJECT 1 once again approached VICTIM from behind and to the left, passed a second note and retrieved the previous note. The second note stated "We can see every move you make," and instructed VICTIM to walk down an unknown street. The notes were on graph paper and were big enough to fold up. VICTIM was uncertain of SUBJECT 1's nationality, but described her clothes as blue jeans, a blue and white colored shirt, and tan leather shoes. SUBJECT 1's hair was dark black, shoulder length, and she had dark skin and eyes. VICTIM was instructed to place the clothes she just purchased on over her own clothes, walk quickly, and keep her head down. After VICTIM purchased the clothes, she exited the rear of the Boardwalk and moved to a main street. VICTIM put the purchased clothes on over her clothes and walked for approximately 45 minutes. SUBJECT 1 then approached VICTIM in the same manner as previous contacts, took the previous note, and passed VICTIM another note that said, "Turn left at the next street." VICTIM did as instructed and walked for another hour and ate a snack and drank water she

had in her purse. VICTIM devised a plan to use a Leatherman (**Note:** a Leatherman is a multi-function tool similar to a Swiss Army knife and is commonly issued to Active Duty Members prior to a deployment) to stab SUBJECT 1 as she approached from her left side. As VICTIM walked past a white van, the door opened and an unknown male approximately 40 years old (SUBJECT 2), pulled her into the vehicle. The back of the van was full of equipment and supplies similar to a construction worker's vehicle. SUBJECT 1 was in the front passenger seat. The driver (SUBJECT 3) was an unknown male approximately 17 years old. SUBJECT 2 took the knife away and told her in English, "You will pay for that." [REDACTED] SUBJECT 2 spoke with an accent VICTIM could not identify and wore blue jeans, a blue shirt, black belt, and black shoes. He had black hair, dark eyes, dark skin, and was clean shaven.

The SUBJECTs did not restrain VICTIM, nor did they search or take her purse. They drove for approximately 1 hour; VICTIM was uncertain of the time of day but stated the sun was setting. VICTIM was thirsty and SUBJECT 2 offered her a beverage in a dark bottle. VICTIM refused the beverage in the dark bottle and requested water. Shortly after her request, the driver stopped the van at a small store that sold drinks. The SUBJECTs allowed VICTIM to enter the store to buy water but told her to keep her head down. The SUBJECTs stayed in the van and VICTIM went in alone to buy water. VICTIM bought the water and hoped the cashier would realize something was wrong but did not request help from the cashier. VICTIM reentered the van and they drove for approximately 1 hour, by this time it was dark. Once the van stopped, SUBJECT 2 brandished a gun and forced VICTIM to cut her hair with the Leatherman. SUBJECT 2 then forced her to dye her hair black and rinse it in the gutter along the street; she then dried her hair on her skirt. SUBJECT 2 was laughing during this process. VICTIM identified herself by name and rank, told her captors they had the wrong person, and tried to find out the motive behind her abduction. [REDACTED] SUBJECT 2 forced VICTIM back into the van and took the Leatherman from her. They then drove for approximately 30 more minutes.

They arrived at an unknown apartment complex where an additional four men were present. The SUBJECTs kept VICTIM in a different room and did not allow her to see the other men. VICTIM and the SUBJECTs stayed for approximately 20 minutes. SUBJECT 2 picked up some bags while in the apartment. They then drove to a house with a gate where they stopped for approximately 10 minutes and SUBJECT 2 picked up more bags. They then drove to a two-bedroom shack with no windows. They put VICTIM in a room on the left. The room did not have a light. The other room had a light bulb suspended from the ceiling on a cord. SUBJECT 2 departed, leaving SUBJECT 1 and SUBJECT 3 in the shack with VICTIM. VICTIM's room had a dirty floor and bushes growing up through the concrete. SUBJECT 1 brought a candle into VICTIM's room along with an empty bowl and a bowl full of water. SUBJECT 1 had a gun; it was smaller than the gun SUBJECT 2 carried. VICTIM received what appeared to be oatmeal without silverware.

[REDACTED] When the SUBJECTs were not in the room with VICTIM she would look under the door into the lighted room to try to figure out what was going on. VICTIM could not tell day from night except for the drop in temperature. SUBJECTs 1 and 3 provided the most care for VICTIM. They would come into VICTIM's room from time to time, sit on their heels and watch VICTIM for approximately 30 minutes at a time. SUBJECT 3 spoke broken English. SUBJECT 2 came in the next day and VICTIM asked him if he had another memo for her. [REDACTED]

[REDACTED] The SUBJECTs would come in and watch VICTIM approximately four times per day. VICTIM would do push-up and sit-ups while the SUBJECTs watched. They never left a candle in her room. SUBJECT 2 departed the shack often and became more agitated as time passed. VICTIM found two sticks growing up from the floor and broke them off to make shanks. She sharpened the shanks into points by rubbing them on the concrete floor. [REDACTED]

[redacted] VICTIM maintained a routine as much as possible. She slept on the concrete floor.

VICTIM planned to stab SUBJECT 3 with the shanks she made the next time he entered the room when SUBJECTs 1 and 2 were not there. SUBJECTs 1 and 2 would leave SUBJECT 3 at the shack on rare occasions. VICTIM convinced SUBJECT 3 to participate in a push-up contest on a previous occasion. She planned to hide the shanks in her pocket and coerce SUBJECT 3 into another push-up contest then stab him while he was doing push-ups. SUBJECT 3 entered the room after VICTIM called out for water, but was reluctant to do push-ups and sit-ups because he had a gun. VICTIM [redacted]

[redacted] stabbed SUBJECT 3, but the shanks did not penetrate the skin. VICTIM ran out of the room and locked SUBJECT 3 in the room. VICTIM stated SUBJECT 1 entered the residence as VICTIM escaped.

VICTIM was uncertain how long she ran but stated the sun was setting as she departed the shack. VICTIM ran nearly all night while hiding from cars. She also slept some during the night but was uncertain how long she slept. She sought help from people by knocking on doors. Eventually a couple provided help and called the police. The police took VICTIM to the police station for approximately 30 minutes and then to the Kant hospital where US personnel recovered VICTIM.

VICTIM assisted SA [redacted] with constructing a computerized composite sketch of each of the three SUBJECTs (attached). VICTIM said the composites she constructed were very similar to the SUBJECTs, but the program would not allow her to change minor details. VICTIM provided the following descriptions of the three SUBJECTS:

SUBJECT 1: Female, 40-45 years of age, 5'5", "healthy" build, yellowish skin tone, but lighter than the other two SUBJECTs. No noticeable piercings. Black hair tied back, straight down the middle of her back and tied into a knot with her own hair, possibly having a pin inside the knot to hold it. Her chin was not well defined. SUBJECT 1 wore the same clothing during the entire event, jeans, white shirt with blue pattern, and on occasion a beige pullover sweater.

SUBJECT 2: Male, late 50's, 5'10", medium build, medium yellowish complexion, no facial hair, black hair, greasy with long strands hanging in front and a receding hairline. SUBJECT 2's upper lip on the left side had a minor deformity, birth mark or a small scar. SUBJECT 2 wore the same clothing, blue shirt, blue jeans, black belt, black leather shoes, and on occasion a black windbreaker.

SUBJECT 3: Male, late teens 18-19, 5'9", slender, black short wavy hair with lines in it and no facial hair. SUBJECT 3 wore the same clothes, blue jeans, white shirt with ruffles on the front, no belt, and tan shoes.

During the interview SA [] and SA [] observed VICTIM wore her diamond rings. []

2-4 VICTIM

Date/Place: 13 Sep 06/Landstuhl Regional Medical Center, Germany
 Agent(s): SA []; SA []

SA [] and SA [] interviewed VICTIM (Agent Note: Also present in the room during the interview was Dr. (Capt) [] United States Army (NFI) and Dr. [], Headquarters AFOSI, Andrews AFB, MD.) (Agent Note: Agents did not obtain any further identifying information.) VICTIM provided the following additional information:

VICTIM planned an OBR trip for 5 Sep 06. As commanding officer of Personnel Support for Contingency Operations (PERSCO), VICTIM took some of her subordinates on one final trip before they all redeployed to the US. At the last minute, the OBR was denied because their vehicle was re-tasked for official trips that took priority. A similar occurrence happened two weeks prior and VICTIM paid a driver to take them on the OBR. She called the same driver to take them on this trip. VICTIM had the driver's business card from the previous trip and telephonically contacted him to arrange for transport to and from Bishkek, KG. The driver was an hour late to pick up the PERSCO team at MAB, KG. While traveling to the Tsum mall, some of the members of the group indicated they did not have their US currency exchanged for Som (KG currency). All agreed when they reached the Tsum, VICTIM, BARNES, and another member (NFI) of the team would stay at the Tsum while the others would go to the Hyatt Hotel to exchange currency (Agent Note: Agents did not obtain further identifying information.) VICTIM and BARNES entered the Tsum and spoke as they were going up the escalator about meeting back at the van in one hour. VICTIM intended to shop for souvenirs on the fourth floor and BARNES was going to shop on the second floor. VICTIM and BARNES got off on the second floor and split up. VICTIM remembered on previous trips that the Boardwalk, a shopping area behind Tsum, had souvenirs and decided to check the prices before going to the fourth floor. VICTIM went back to the first floor, and prior to exiting the Tsum, decided to purchase earrings and "chap stick" or "lip balm". VICTIM clarified it was lipstick, the "pretty kind." She wanted to purchase the lipstick to look nice for her husband [] when she arrived in the US. A sales woman brought her a mirror to look at herself after applying a test sample on her lips, and she tested another color on the back of her hand. VICTIM had not worn or purchased lipstick over the prior 4 months while at MAB, KG. VICTIM said it was just a spontaneous reaction to purchase the lipstick and did not know why she did not compare prices with those at the Boardwalk. She said she does not know why she put the lipstick on before leaving to go to the Boardwalk other than she had not worn lipstick in a long time. After applying the lipstick, she departed the Tsum out the front door. VICTIM explained she was not familiar or oriented with where she was in the mall so she did not use the side door, the one she entered and closer to the Boardwalk. She just walked out a door to go outside in order to determine where she needed to go. VICTIM exited the Tsum and turned left to go to the Boardwalk area. Shortly after she entered the Boardwalk, a covered area with various vendors, SUBJECT 1 approached VICTIM. SUBJECT 1 interlocked her arm with VICTIM's left arm and instantly slipped an object into VICTIM's back left pants pocket and removed the cellular telephone from VICTIM's bag. VICTIM's purse was on the left side of her body. VICTIM thought SUBJECT 1 intended to rob her and showed SUBJECT 1 her wallet containing money, but SUBJECT 1 did not take the wallet. SUBJECT 1 handed VICTIM a handwritten note written in English on a standard size sheet of white graph paper. The note read, "You have a bomb, follow instructions exactly or Boom". The note further directed VICTIM to go buy a dress, black hair dye (brown was the original color, but crossed out), and a shawl. The note then instructed VICTIM to go to the nearest street. VICTIM purchased the listed items. VICTIM could not find a dress, so she purchased a full-length yellow skirt, a dark brownish-black shawl with fringe on the edges and a brown shirt. She purchased all the items at

various vendors inside the Boardwalk area. VICTIM purchased the shawl toward the left side and the hair dye toward the back right. The hair dye had yellow and white markings with a human face on the box. VICTIM could not recall how much any of the items cost or if she received change back from any of the vendors. She believed she paid, about 500 Som, for the skirt and received some change back, but does not recall how much. The first piece of clothing she purchased was the skirt, then the shawl and brown shirt, and lastly the hair dye. The hair dye was to the far back right side before leaving out the back exit. VICTIM made hand gestures to the woman who sold the shawl, hoping she may understand VICTIM was in trouble. After buying the items, VICTIM walked out the back of the Boardwalk to locate the nearest street as the note directed. She walked through the park and found a street on the other side of the park. VICTIM had no explanation why she took the route through the park and did not go to the nearest street running in front of the Boardwalk, which was in sight of the Boardwalk exit. VICTIM could not see any streets on the other side of the park, however, took the route anyway. [REDACTED]

When VICTIM reached the street, SUBJECT 1 reappeared and again interlocked her arm. SUBJECT 1 gave VICTIM another piece of paper. The second note stated, "We are watching every move you make. Follow all instructions exactly don't disobey. Put the clothes on and walk with your head down." The note was also on white graph paper. SUBJECT 1 took her arm and swung VICTIM around so VICTIM lost all sense of direction. VICTIM then continued walking straight and after about 5 or 10 minutes she put on the clothing she bought. VICTIM did not pass the Tsum nor did she pass the Hyatt. VICTIM continued to walk straight down the street but did not see anything in the area that looked familiar. VICTIM did not recall any signs, buildings, or any other unique identifying features that would assist in identifying the location. VICTIM described everything was "vague." VICTIM felt the bomb in her back left pocket, however, was too scared to pull it out to discard it. VICTIM advised she saw too many things on the news and in the movies, such as the "Unabomber," and was not going to take a chance. VICTIM felt the bomb on her back when she walked. It stuck out and scratched her back when she walked. VICTIM felt the bomb with her hand and it felt round and in the shape of a number seven. VICTIM later clarified the bomb was not scratching her back, but rubbed her buttocks. VICTIM walked in the area for approximately 2 hours. [REDACTED] At first, VICTIM said she walked in a straight line, but when asked about leaving the city center, VICTIM advised she could tell she was reaching the outskirts, but did not leave Bishkek, KG.

The road was jagged so the path she walked may not have been straight. During the walk, VICTIM took a Leatherman out of her bag and planned to stab SUBJECT 1 if and when she returned. VICTIM could not advise what she planned to do next if she did stab SUBJECT 1 because she would still have the bomb in her back pocket. During the walk, VICTIM walked by a white van, the side door opened and SUBJECT 2 pulled her into the van. There were three individuals in the van. SUBJECT 3 drove, SUBJECT 1 was in the front passenger seat, and SUBJECT 2 was in the back seat with VICTIM. VICTIM said she pled with the SUBJECTs, saying she was an American Major in the Air Force stationed at MAB, KG, and telling them they must have the wrong person. SUBJECT 2 took VICTIM's Leatherman, [REDACTED] and told her in English, "You will pay for that." The van was an older white model with windows on the side, was very rusty, loud, and possibly ran on diesel fuel. The van had two bucket seats in the front and a partial bench seat in the middle. VICTIM believed it was an automatic transmission. It had dark, multicolor grain, cloth seats. The dash lights were yellowish and dim, appearing to have some burnt out bulbs. It contained "junk" in the back, possibly construction tools and left over items from construction projects.

The SUBJECTs drove VICTIM around for at least 1 hour when VICTIM told them she needed water. SUBJECT 2 offered VICTIM a drink from a colored bottle, which she believed to have been beer at first, and then stated she believed it was soda. VICTIM refused to drink from the bottle. After continuing a short time, SUBJECTs stopped the van. VICTIM went by herself into a white shack that sold various items and purchased a bottle of water. The SUBJECTs got out of the van but stood outside while she was

in the store. VICTIM said the female behind the counter should have noticed she was distraught, but she seemed not to pay attention to her. VICTIM purchased water and walked back to the van. VICTIM stated she still had the bomb in her back pocket. VICTIM stated she never attempted to speak to the lady in the store in English. VICTIM claimed the woman did not speak English, however when asked how she knew without attempting to speak English to her, she did not have an answer. VICTIM did not try to communicate in English to any of the people she encountered to ask for help. VICTIM advised she still had her bag at this point and none of the SUBJECTs searched the bag. VICTIM described the female in the store behind the counter as Kyrgyz, 5'5", black hair, brown eyes, slanted eyes, black pants, black sweater, white shirt and collar. A Kyrgyz male was also in the store and described as 5'5", black hair, brown slanted eyes, wearing a brown shirt. VICTIM saw a gas station, with green and blue stripes, to the right and across the street from the water store.

After getting back into the van, SUBJECT 2 forced VICTIM to kneel down beside the sliding door while they drove for approximately 30 minutes. The van then pulled to the side of the road and they made VICTIM get out and kneel down on the edge of the road. SUBJECT 2 gave VICTIM's Leatherman back to her and instructed her to cut her own hair. [REDACTED]

[REDACTED] VICTIM first tried to cut her hair with the scissors on the Leatherman; however, it would not work, so she used the knife to cut it. After the haircut, SUBJECT 1 poured the hair dye into VICTIM's hair and instructed VICTIM to rub it in. After rubbing the dye into her hair, [REDACTED]

[REDACTED] VICTIM was able to wipe some of the dye off of her hands on the yellow skirt she had on over her pants.

After dying her hair, the SUBJECTs returned VICTIM to the van and they continued to drive for about 30 minutes on a route that seemed to "double back", making several turns and eventually arrived at an apartment building. VICTIM could not describe the exterior of the apartment building. They walked up stairs to the second or third floor. The outside was dark and VICTIM could not provide a color. The interior of the apartment had a cross pattern, tan vinyl floor with worn holes in it, an old chair, a sofa with a blanket (unknown color) over the back, and a metal table with coffee mugs and silverware. SUBJECTs 2 and 3 went into another room of the apartment. SUBJECTs 2 and 3 laughed and spoke with other males. After approximately 20 minutes, SUBJECTs 2 and 3 came out of the other room carrying 2 (one each) tan "terry cloth" bags. The four of them again got into the van and left the area. They drove for approximately 30 minutes at a normal pace to a house in a rural area. Only SUBJECT 2 exited the van and entered the house. SUBJECT 2 returned with a tan, cloth, square container with wooden handles. VICTIM could not provide any identifying features of the house nor surrounding area. The SUBJECTs and VICTIM drove away in the van.

After approximately one and a half hours of driving, they arrived at a shack. No other houses were in the immediate area. VICTIM could see shadowed outlines of buildings in the distance. The area smelled like smoke, sewage, and dirt. It did not smell like a farm, but VICTIM believed it was in a rural area.

The SUBJECTs held VICTIM at this shack for the next two to three days. During this time, the SUBJECTs did not allow her to leave the room where the SUBJECTs originally placed her. At various times, VICTIM heard dogs barking, sheep, and someone yelling "Sheep, Sheep" (Agent Note: VICTIM described this in English and not Russian or any other foreign language.) VICTIM lost track of time and could not determine if it was night or day. The shack had two rooms. VICTIM's room had no electricity or lights, the other room had one, small, dim light hanging from the ceiling. The shack had no running water. VICTIM observed the other room had mats on the floor that appeared to be for the SUBJECTs to sleep on. The inside of the shack was stucco with an uneven concrete floor in her room and weeds between the cracks. At various times, the SUBJECTs entered her room, using a candle to light it. None

of the SUBJECTs changed clothing. SUBJECT 1 was a female, 5'6", "healthy" build, 40-45 years old, had the lightest skin of the 3 SUBJECTs, wore jeans, a white beaded pattern shirt and on occasion, a pullover beige sweater. SUBJECT 2 was a male, 5'10", medium build, late 50's, with no facial hair, wore a blue button up shirt, black belt, black shoes and on occasion a black nylon windbreaker. SUBJECT 3 was described as a male, late teens, 5'9", slender, short hair which was wavy with lines, who wore jeans, a white shirt with ruffles, no belt, tan shoes and could only speak broken English.

Occasionally, she could hear SUBJECTs 2 and 3 speaking to other males who came to the shack. SUBJECT 2 spoke broken English; however none of the others appeared to speak English. VICTIM heard the SUBJECTs speak on several occasions, but could not identify what language they spoke. VICTIM guessed, based on their appearance, the SUBJECTs may be European. She did not understand any of the words she heard. VICTIM refused to discuss details of the escape other than she was able to take advantage of SUBJECT 3 and escape by running out the door and locking him inside her room. VICTIM said when she ran out the door, she stepped off a concrete step and passed SUBJECT 1. The shack did not have a porch. VICTIM was not able to obtain any other details because the sun blinded her. SUBJECT 1 yelled at VICTIM while she ran but VICTIM did not know if anyone chased her or not. VICTIM ran for the next two or three hours.

VICTIM could not identify any landmarks, unique qualities in the terrain, odd-looking homes, colors, or anything else that would assist in the identification of the route of her escape. VICTIM did not cross any railroad tracks, streams, creeks, rivers, or canals. She mainly stayed on dirt roads and fields. VICTIM ran into several small villages (unknown number) and recalled at one village she ran into a dead end road and had to turn around and leave the same way she came. She could not provide any details of any of the other villages. After sunset, and at various times throughout the evening, VICTIM stopped in the woods for short periods to rest. She was able to crawl under brush and sleep for a short time. After nightfall, she continued to run until she entered the village of Kant, KG. VICTIM crossed a metal pipe over a canal, and then turned around after hearing animal noises on the other side. She felt as if she was not strong enough to make it to the next village, from the lights she could see, and was deteriorating to the point she needed to seek help. VICTIM attempted to flag down a passing by car. She then noticed two females speaking but was too afraid to speak to them. VICTIM could not provide a reason why she was afraid to approach the women. VICTIM noticed a large wall with wire on it and believed it was a prison. In this area, VICTIM knocked on three houses before an older couple let her in their carport area. The couple, and kept her in the carport and she tried to tell them to call the police by saying "Politzi". The couple went inside the house and their who spoke broken English, spoke to VICTIM. VICTIM stated she had no reason to stop at this particular house; however, the first two or three attempts at other houses were not successful. The home had a Bavarian Motor Works (BMW) vehicle parked at it and VICTIM felt it was an upper class family. VICTIM believed she was at the couple's home for approximately 20-30 minutes before the police arrived. The family offered her coffee, tea, vodka, and food, but she turned down the offer because she was afraid to eat or drink anything since she did not know the people.

Local police arrived, and drove VICTIM to the nearby police department. VICTIM stayed at the Police Department in Kant, KG, for approximately 45 minutes. While at the police department, VICTIM did not recall if they offered her anything to eat or drink, however, if they did, she did not accept it. The police drove her to the hospital in a red car. VICTIM recalled the Policeman spoke broken English.

VICTIM refused to eat or drink anything at the hospital but could not recall if

they offered anything, because she was "kind of in and out". After approximately 45 minutes at the hospital, US officials arrived and transported VICTIM to MAB, KG.

[REDACTED]

VICTIM stated she went to shop that day to purchase some souvenirs, jewelry, and maybe some clothes. VICTIM went to the Boardwalk on only one other occasion, and recalled they had better prices than in the Tsum. VICTIM recalled the Boardwalk sold the Russian looking fur hats and authentic clothes. VICTIM did not have anyone in particular to buy for, but wanted to pick up items relating to KG.

VICTIM did not originally believe the SUBJECTs targeted her, however, she realized she may have been after agents pointed out the note was in English, the hair dye, and other things the SUBJECTs told her to buy would only work with individuals who fit her description. VICTIM said the SUBJECTs may have targeted her but did not know why because she is not important and does not know anything of intelligence value. She said she wore the same clothes every time she went on an OBR, because she had no other clothes appropriate for wear in town. VICTIM had no idea why they singled her out. VICTIM does not believe the SUBJECTs were part of a terrorist organization, but could not elaborate.

VICTIM advised she did not have her passport with her. She said it must be in her room at the base. When agents told VICTIM her passport was not located in her room, she could not recall if she deployed with it and may have left it at home. VICTIM said her military identification card was in her wallet and the SUBJECTs took it. VICTIM's bag contained her brown "man's" wallet with her military ID card, still indicating her previous rank of Captain, camera, cell phone and some other miscellaneous items she could not recall.

VICTIM said she wrote "Georgiyevka/Kazakhstan, North / East", (a city on the border of Kazakhstan and KG) on a yellow sticky note after she looked on a large map at different cities in the area of MAB, KG, and researched the city on the internet (**Agent Note:** The yellow sticky note was found during a search of VICTIM's workspace on 6 Sep 06). She could not provide any details of what she discovered. VICTIM often did this with other cities in the area but she could not provide any other city names. VICTIM traveled throughout the world and was simply interested in different geographical areas. VICTIM could not recall if she ever search the city of Kant, KG, but was unsure. VICTIM sometimes used her work computer to search the internet. However, she usually used the internet service at the Green Bean Cafe because she did not want to use the government computer for personal use. VICTIM explained she does gamble occasionally and usually plays Black Jack, however, VICTIM never gambled in KG or Kazakhstan. VICTIM stated the only place she ever gambled was Las Vegas, NV.

VICTIM said she was with Lt Col [REDACTED] 376th Expeditionary Services Squadron (ESVS), MAB, KG, on one OBR and was late getting back to the van because she did not know where the van parked. VICTIM had a hand full of bags and left the Tsum to put the items in the van to go back in and shop. On another OBR, VICTIM and some others walked around the block. They saw the Hyatt, an outdoor pub and a bowling alley on other OBR trips. VICTIM and the others stopped at the pub [REDACTED]

[REDACTED] VICTIM believed she had been on a total of three to four OBR trips. Other than the OBR trips, VICTIM said she had not left base. VICTIM advised she and others from her PERSCO office went to the civilian side of the airport for official business. The trip to the airport was for immigration issues and the two co-workers, SSgt [REDACTED] 376 EMSG, MAB, KG, and BARNES, wanted to see the process. VICTIM used a female

translator, saying "not [redacted] (NFI) but the other one" (Agent Note: Agents did not obtain any further identifying information.) VICTIM stated she had not been to any of the orphanages in KG.

VICTIM said the SUBJECTs may have mistaken her for a British person, but could not explain why she thought this. VICTIM did not meet any British nationals in Bishkek, KG, nor were there any British troops at MAB, KG. VICTIM said she used [redacted], linguist, MAB, KG, as a translator for the immigration issues at the airport so that is why there was a note in her room with his name and telephone number on it. [redacted] called the airport to ask questions about the procedures because Americans coming through MAB, KG, complained about the long wait. [redacted] was a local national and was one of several Russian linguists hired to work on MAB, KG.

VICTIM provided the following information (also present was VICTIM's [redacted]): When the SUBJECTs took VICTIM to the first residence, they kept VICTIM in the front room, with SUBJECT 1 and SUBJECT 3, while SUBJECT 2 went into a back room and conversed with some other males. VICTIM never saw those males. When they left the residence and stopped at the next residence, VICTIM remained in the van and only SUBJECT 2 went inside the residence. While in the room at the dwelling the SUBJECTs ultimately took her to, VICTIM could only see feet and legs underneath the crack of the door, as well as hear their voices. She never saw anyone's face, other than SUBJECTs 1, 2 and 3. She described the last place as having a lot of "foot traffic." VICTIM stated she clearly remembers the faces of SUBJECTs 1, 2 and 3. She stated the most distinguishing characteristic of any of the SUBJECTs was SUBJECT 2's upper lip. She said it was pulled together on one side and was very noticeable. She described it as a slightly cleft lip to one side. Additionally, SUBJECT 2's hair was slicked back over his head and was very greasy. SA [redacted] and SA [redacted] explained the Freedom of Information Act (FOIA) process to VICTIM. SA [redacted] notified VICTIM of the statement Maj [redacted] 23rd Mission Support Squadron, MAFB, GA, provided to AFOSI, wherein [redacted] said VICTIM relayed to her [redacted].

[redacted]. VICTIM stated she did not remember making the comment and [redacted] may have misunderstood her. VICTIM also stated she did not trust [redacted] back then, so after every conversation with her, VICTIM wrote a memo for record (MFR) to herself. SA [redacted] provided the approximate date [redacted] said VICTIM disclosed the information to her. VICTIM stated she would check her MFR from that date to see what she wrote down from the conversation. VICTIM stated medical personnel at both Bagram Airfield (BAF), Afghanistan (AF) and the Landstuhl Regional Medical Center (LRMC), Landstuhl, GE [redacted]. VICTIM stated SERE personnel kept one copy and the medical personnel gave her the other. VICTIM handed her copy to an Army Capt (Psychologist) (NFI) who accompanied her from BAF, AF to LRMC and never got it back (Agent Note: Agents did not obtain any further identifying information.) VICTIM could not recall the name of the Army Capt.

SA [redacted] conducted two photo line-up series with VICTIM without [redacted] present. Series 1 included a photograph of [redacted], Chief of Security, [redacted] Casino, Bishkek, KG, in addition to 5 photographs of other individuals of similar ethnicity. Series 2 included a photograph of [redacted], Chief of Surveillance, [redacted] Casino, Bishkek, KG, in addition to 5 photographs of other individuals of similar ethnicity. VICTIM did not recognize any individuals in either of the two series. SA [redacted] then showed VICTIM surveillance video of the unknown male following VICTIM in the Tsum shopping mall, as well as the unknown female who followed VICTIM out of the mall. VICTIM did not recognize the two individuals in the surveillance video, but commented

the poor clarity of the video made identification difficult. VICTIM related she never saw anyone else's faces other than her three kidnappers.

[redacted] provided a signed, sworn statement (**attached**) which disclosed the following: [redacted] and VICTIM were friends, but worked opposite shifts. [redacted] and VICTIM would often talk, particularly when VICTIM was upset. One night, before her disappearance, VICTIM found out her godmother died. VICTIM was upset about the death. VICTIM's grandmother died shortly after she arrived at MAB, KG, and VICTIM's sister-in-law's father died during her deployment. [redacted] and VICTIM talked at length about the deaths and VICTIM's feelings. After [redacted] and VICTIM talked, VICTIM seemed to feel better. During the off base trip on 5 Sep 06, VICTIM seemed upbeat and cheerful. VICTIM bought going-away gifts for everyone on her PERSCO team. Before the trip, VICTIM snuck around the office trying to hide the gifts from her officemates. VICTIM planned to give the gifts to people during the dinner planned for the evening of 5 Sep 06. VICTIM was happy with her job. VICTIM always tried to find ways to make PERSCO better. VICTIM [redacted] one week prior to deploying to MAB, KG. [redacted] was going well. VICTIM always seemed excited when she was about to call [redacted]. In Jul or Aug, instead of calling [redacted] from the office, as she usually did, VICTIM went to the Green Bean café on MAB, KG. Calls to the US from the café cost money, whereas, calls from the office were free using the DSN. [redacted] went on three trips off base with VICTIM prior to her disappearance. [redacted] was not certain, but she believed VICTIM would occasionally wander off on her own during the trips. On the trip prior to her disappearance, VICTIM hurried around the Tsum shopping mall by herself trying to shop quickly. During the off base trips, VICTIM did not want to stray from areas designated on the off base recreation letter. Prior to her disappearance, VICTIM did not show any secretive or unusual behavior. [redacted] did not know of any financial problems. Every Thursday night, VICTIM bought pizza and a movie for both the day and night PERSCO shifts. [redacted] provided a signed, sworn statement (**attached**) which disclosed the following: On 5 Sep 06, at approximately 1523 hours, personnel from PERSCO team, 376 EMSG, MAB, KG, left to go on an OBR trip. According to VICTIM, the OBR van was re-tasked to another person for "official" purposes. The group had to pay \$75 to rent a van and driver for the trip. VICTIM called another driver she used on a previous OBR to assist her. The driver said he would meet the group outside the MAB, KG, gate at 1530 hours. The group arrived outside the gate between 1515 and 1525 hours. The driver arrived at approximately 1537 hours. They went straight from the base to the Tsum shopping mall in Bishkek, KG. After reaching the Tsum at approximately 1610 and 1620 hours, [redacted], [redacted], SSgt [redacted] 376 EMSG, MAB, KG, and [redacted] left to go to the Hyatt hotel to withdraw and exchange money from the cashier's station. Before leaving the Tsum, the group agreed to meet VICTIM and BARNES back at the Tsum at 1715 hours. The group intended to go to 12 Chimneys for dinner. VICTIM and BARNES paired up and went into the Tsum. The last time [redacted] saw VICTIM was when she was walking up the stairs towards the Tsum. After they received their cash and left the Hyatt, they stopped by the bowling alley so [redacted] could say goodbye to one of her friends who worked there. They stayed there between 10-15 minutes. They reached the Tsum at approximately 1655 hours. BARNES was sitting outside the Tsum and [redacted] asked her where VICTIM was. BARNES told [redacted] she was still in the Tsum and should be returning shortly. [redacted] made a joke saying, "You know the Major [VICTIM] is going to be late." BARNES said VICTIM would be on time. At approximately 1745 hours, [redacted] and BARNES went into the Tsum to look for VICTIM. After they returned with no sign of VICTIM, they decided to call VICTIM from the driver's phone. On the first call,

it kept ringing with no answer. On every subsequent attempt, the operator would come on, in Russian, saying "The person you are trying to locate could not be reached." The driver interpreted the message for them. When they told BARNES this, she said VICTIM's phone possibly had a dead battery. [] and [] again went to the Tsum to try to locate VICTIM by doing a complete sweep. While on the third floor, they noticed AFOSI personnel. They decided not to involve AFOSI at this time in case VICTIM was simply late. They checked every floor to include the bathrooms (checked by [], BARNES, and []). When they finished checking the whole mall and the outlying vendors surrounding the Tsum, notified the AFOSI personnel in the Tsum. [] returned to the van along with [] to wait and see if VICTIM would return. [] and [] then departed the group to continue the search for VICTIM. They called Col [], Vice Commander, 376 AEW, MAB, KG, to inform him of the situation. Col [] instructed the group to return to the base immediately.

In addition to [REDACTED] statement she provided on 5 Sep 06, she provided the following information: VICTIM was her Section Commander at MAFB, GA, where they were in daily contact. [REDACTED]

[REDACTED] VICTIM and the rest of the PERSCO members completed several pre-deployment training exercises and attended a pre-deployment party prior to arriving in KG. [REDACTED] was aware [REDACTED] before she deployed, but added VICTIM and [REDACTED] knew each other for about four years. [REDACTED] stated this was VICTIM's sixth trip off base but only the third they were on together. On 5 Sep 06, after VICTIM was notified the shopping trip was cancelled due to a transportation issue, VICTIM immediately started making phone calls and was able to get the trip re-approved. [REDACTED] said the plan was to go out with the team for one last "hoorah". VICTIM said she wanted to shop at the Tsum and eat at the 12 Chimneys restaurant. On the way to the Tsum, VICTIM sat in the front seat and took a few pictures of the rest of the team. At approximately 1605 hours, they arrived at the Tsum and made a collective decision that VICTIM and BARNES would go to the Tsum first, while [REDACTED] and the rest of the team went to the Hyatt hotel to exchange money. The team agreed to meet outside the Tsum at 1715 hours. When VICTIM failed to show at the scheduled time, they searched for her. [REDACTED] stated VICTIM was eager to re-deploy home and was planning [REDACTED] to Jamaica. VICTIM also planned a barbecue for the team, for when they were back at MAFB, GA.

During a staff meeting on 5 Sep 06, [redacted] told [redacted] he should try to get off base more often than VICTIM did. When VICTIM disappeared, both [redacted] and [redacted] found it strange VICTIM would separate from the group while off base. VICTIM often seemed preoccupied and would occasionally miss salutes from enlisted members while walking around MAB, KG. VICTIM never mentioned any plans upon re-deployment. On 7 Sep 06, [redacted] and [redacted] discussed VICTIM's disappearance. Evidently, VICTIM told [redacted] everyone should be able to go off base more often. [redacted] thought that was strange because VICTIM expressed the exact opposite to him. [redacted] commented he accompanied VICTIM on a trip off base in Aug 06, and noticed VICTIM was inquisitive about landmarks and which direction was North, South, East and West. [redacted] mentioned when VICTIM's last OBR was cancelled on 5 Sep 06, VICTIM was angry and took her aggression out on a chair. VICTIM commented this trip was not meant to happen because of all the trouble she had making it work. VICTIM made several phone calls in order to obtain transportation. At some point, she told someone, "I'll pay for the transportation myself." VICTIM was pleased after she secured transportation downtown.

In addition to [redacted] signed, sworn statement, he provided the following information: Prior to his deployment to MAB, KG, he contacted VICTIM via e-mail and inquired how often she was able to get off base. VICTIM replied she did not leave the base very much because she did not have time. VICTIM made it a rule during all off base trips not to walk to the van alone and always meet at the pre-established meeting place typically outside the door against the wall where the group enters any area.

On 9 Sep 06, BARNES was re-interviewed to provide further information about VICTIM's clothing and personal items in VICTIM's purse. BARNES provided the following: VICTIM had a "men's" wallet in her purse, a small digital camera, no make-up, and a plastic brown hair clip. BARNES said VICTIM did not wear make-up. [redacted] Casino, Bishkek, KG
Date/Place: 11 Sep 06/[redacted] Casino, Bishkek, KG
Agent(s): SA [redacted]; SA [redacted]

During an interview, [redacted], provided the following information: The [redacted] Casino was closed for approximately one month due to licensing problems and because her life had been threatened. Approximately one month prior, a local "gangster" directed two of his men to walk into the [redacted] and threaten to kill [redacted] if she did not pay protection money. [redacted] met with the organized crime affiliate and stood up to him. She told him she would not pay the money and he would have to speak to her boss if he wanted to communicate further. The man put her in a headlock and told her she would live a long life because she stood up to him. After this incident, she fired her two security managers and in return, they threatened to kill her. The former head of security told [redacted] this was now personal and he would throw acid in her face and she would be stabbed. After this, [redacted] moved into the Hyatt Hotel, Bishkek, KG, and hired six bodyguards.

The [redacted] Casino was the only casino that did not give customers lines of credit. Other casinos would but only if they were regular customers who were "in good standing." [redacted] heard rumors VICTIM was a big gambler and was given a \$10,000 line of credit at the Sun Casino. [redacted] knew it was not true because she knew the manager of the Sun Casino and if a white American female with blonde hair lost that much money the Sun Casino's manager would have told her. Also, she knew the Sun Casino manager would not give a military member, stationed at MAB, KG, and a line of credit due to their short time in the country. [redacted] opined, if VICTIM did owe money and could not pay, she would have been beaten up much more severely than she was. If the Russian Mafia was involved, they would have killed her and not let her escape.

[redacted] also heard VICTIM went into gambling debt and on the day of her disappearance, she was at the Tsum to either meet someone to pay off the debt or meet someone to help her get the money to pay off the debt. However, [redacted] admitted this was uncorroborated information.

[redacted] stated no casino would take a ring or earring as collateral. Also, there were no casinos in Kant, KG, or at Lake Issyk'Kul, KG. However, a major crime organization was there. She did not hear of any activity coming out of Kant or from the Russian AB. [redacted] confirmed there was a casino across the border in Kazakhstan.

During an interview, [redacted] provided the following information: [redacted] was in charge of the IOM, Kyrgyz Republic Division of Human Trafficking, 245, Chuy Av, Demir Bank, Bishkek, KG. [redacted] advised in the prior nine years there has only been one documented kidnapping case. This case involved a young Tajikistani female taken from her family, who were in KG illegally. None of the officials who worked in the IOM knew of any similar kidnapping scenarios that come close to the details provided in the abduction of VICTIM. [redacted] said human trafficking often occurs in the outlying areas and in the smaller villages where the victims are uneducated, young and used for either slave labor or sexual slavery. The kidnappers take many of these young females to the United Arab Emirates (UAE), Turkey or somewhere else in the Middle East. [redacted] advised, no group, other than terrorists, would target an American military member. He did not believe a local group would be sophisticated enough to conduct such an operation. Any local criminal element would not want to draw such attention by targeting an American. [redacted] also advised the city of Kant is a very tight knit area, where all of the former Russian AB workers lived. To have an international terror group operating near Kant would be well known by everyone in the village and surrounding areas. (Agent Note: [redacted] spoke fluent English.)

VICTIM called [REDACTED] cell phone several times from her cell phone; however, [REDACTED] was not initially the First Sergeant for the unit. He did not have the First Sergeant phone on 13 May 06, at 0234 hours when VICTIM placed a call to the phone. He was not appointed First Sergeant duties for almost a week after his arrival. [REDACTED] had several face-to-face, telephone and e-mail conversations with VICTIM. Those conversations were always work related. On one occasion VICTIM and [REDACTED] spoke in person for approximately one hour when VICTIM won a monthly award, but no one else in her unit did. They were assigned together in Spangdahlem AB, GE and then later caught up again with each other at Ramstein AB, GE. They were once again assigned together at MAFB, GA, where VICTIM worked for [redacted] as both her MPF Chief and then as her Manpower Chief. [redacted]

She could not recall what the other women looked like because she was focused on VICTIM. The elderly woman said that VICTIM was very pretty and she wondered why VICTIM was so sad. At first the elderly woman could not recall when she saw VICTIM, but after further questioning, she stated that it must have been either last Tuesday (5 Sep 06) or last Thursday (7 Sep 06) because she did not work on Wednesday (6 Sep 06). She was unaware of the time because she did not have a watch, but thought it was in the afternoon.

Agents ventured outside Kant covering fields, paths, and highways looking for any indication of a 2 room shack where VICTIM could have been held (as indicated in VICTIM's statement). There were several small villages. Walls and gates surrounded most of the houses in the villages. Several agents ran across shepherds and farmers.  Agent(s): SA [redacted]

Exhibit: 15

Members of 376 ESFS (NFI) interviewed BARNES and she provided a signed, sworn statement (**attached**) which disclosed the following information: At 1515 hours on 5 Sep 06, [redacted] transported BARNES' group to the MAB, KG, front gate (**Agent Note:** Agents did not obtain any further identifying information.) At 1535 hours, a hired local national driver arrived and transported the group to Bishkek, KG. VICTIM obtained a different driver than was initially scheduled due to the original driver being re-tasked for an official off base trip. The driver does provide official services to MAB, KG; but on this day he was performing freelance work and charged VICTIM \$75.00 for his services. At approximately 1600 hours, the group arrived at the Tsum. VICTIM instructed everyone to regroup outside the front door of the Tsum at 1715 hours. BARNES proceeded to the second floor of the Tsum to exchange a purse. VICTIM followed BARNES up the escalator to the second floor. VICTIM told BARNES she was going to the fourth floor to buy souvenirs. When VICTIM got off the second floor escalator and proceeded to the third floor escalator BARNES lost contact with VICTIM. At approximately 1615 hours, BARNES finished exchanging the purse and proceeded to the fourth floor to locate VICTIM. BARNES could not locate VICTIM on the fourth floor so she searched the rest of the Tsum. BARNES could not locate VICTIM so she went to the pre-established meeting place to wait on [redacted], [redacted]; [redacted]; and [redacted]. At approximately 1650 hours, the group met outside the Tsum, they split into two groups and went inside the Tsum to search for VICTIM. They also searched the outside market located south of the Tsum. Neither group was able to locate VICTIM. At approximately 1655 hours, the group checked the Tsum again and still did not locate VICTIM. They then contacted each merchant who worked on the first floor of the Tsum. One merchant at a cosmetic counter remembered VICTIM stopping by and purchasing lip gloss. The entry indicated VICTIM wore a whistle around her neck when she worked alone on weekends and late at night. The intention was to use the whistle to alert workers in the next building if VICTIM was in distress. She allegedly made workers in the other building practice responding to her distress call. She wore the whistle because she felt afraid at work after getting into a verbal argument with a contractor. She did not wear the whistle when she went off-base. On 06 Feb 08, SA [redacted] reviewed a USACIL report (**attached**) that had been completed on 8 Jan 08 and 11 Jan 08. A review of the reports disclosed several examinations had been completed. An examination of VICTIM's jeans disclosed the presence of a tan brown stained area on the inside of the back left pocket. The stain appeared to have been made by a circular object and there were indications that the surface of the object which stained the area was soiled and abrasive. Particles collected from the back left pocket contained fragments of plant debris, numerous black rubber-like particles, traces of iron, lead, zinc and aluminum. The front right pocket contained traces of silicon particles. Debris collected from the pockets of the jeans revealed no particulate explosive residues.

Lab personnel also examined VICTIM's green, long-sleeved shirt, which disclosed brown stains on the exterior and on a small interior back portion of the ribbed collar. The stains formed a distinct line parallel to and extending the length of the exterior portion of the back collar. No brown stains were found on the

right or left sleeves, cuffs or front collar of the green shirt. Chemical analysis of the "brown stains on the collar revealed the presence of chemical dye products commonly found in over-the-counter hair dye products." The evidence also included a brown, long-sleeved shirt which also had dark brown stains; however, they were too small and too few in number to conduct a chemical analysis for the presence of hair dye products. The examiners found at least three hairs amongst the clothing that possessed "cuts/slashes adjacent to one end of the hair which penetrate into the shaft. The cuts could have been caused by a sharp edge slicing across the hair in this area; however, this could not be confirmed."

The examiners were provided 18 over-the-counter hair dye kits that had been purchased in Bishkek, KG. Examination revealed all the kits consisted of at least 2 substances (a peroxide substance and a dye chemical substance) which had to be mixed together before being massaged or combed into the hair. Twelve of the kits did not include a container for mixing the substances together; the other six kits were activated by pouring the ingredients of one container into the other container that came with the kit. Testing of the dye found on VICTIM's clothing did not match any of the 18 dye kits submitted to the laboratory.

The last CD (TSUM Video w/Narration) contained a PowerPoint presentation named “Video Timeline” which contained a compilation of video surveillance footage of the Tsum mall, in chronological order, from multiple video camera positions/floors (**attached**). A review of the presentation identified a male in close proximity to VICTIM when she perused several floors of the mall. At one point, the male appeared to be waiting at the bottom of the 1st floor escalator as VICTIM was traveling down it. At the base of the escalator, the male appeared to touch VICTIM’s back as she walked by, however, the poor quality of the video made it difficult to confirm. The male then appeared to be awkwardly waiting near the exit VICTIM was last seen leaving. The male was observed to have possibly made a hand gesture towards VICTIM before passing her as she made her way towards the mall exit. A female, who matched the

physical and clothing description provided by VICTIM, was observed passing the male following his hand gesture, and followed VICTIM out of the mall. The male appeared to have made two cell-phone calls three and one minute before he was observed waiting near the mall exit as VICTIM departed.

After VICTIM departed the mall, the male then took the same escalator as BARNES, as she traversed from the second to the third floor. The male was approximately 50 seconds behind BARNES. BARNES then took the escalator from the third floor to the fourth floor, where she and VICTIM agreed to meet. After arriving to the third floor, the male then took the escalator back down to the second floor and then ultimately the first floor. The male then appeared to briefly look around the escalator on the first floor and then took the escalator back to the second floor and then to the third floor. BARNES and the male appeared on the third floor at the same time, but appeared to be on opposite sides of the escalator, which would have blocked their view of each other. BARNES then took the escalator to the second floor and ultimately the first floor, where she departed the mall alone.

The male then travelled from the third floor down to the first floor, where he appeared to meet up with a group of approximately five males. They appeared to talk briefly and then the male departed the mall through the same exit as VICTIM by himself.

2-199 MVD Sverdlozsky District Police Report (Case #396/06)

 Agent(s): SA [redacted]

Exhibit: 35

MVD, Sverdlozsky District, Bishkek, KG, provided agents with a copy of their police report (**attached**). [redacted] translated the report from Russian to English. SA [redacted] reviewed the translated report, which disclosed the following information: The report encompassed the events from 5 Sep 06, (VICTIM's disappearance) through 9 Sep 06, (VICTIM's recovery). The following is a summary of the report: The case was registered with the Sverdlozsky District MVD on 6 Sep 06. The MVD interviewed [redacted], who stated on 5 Sep 06, at approximately at 1400 hours, he received a telephone call from VICTIM on his cell. She asked him to give her and a group of military personnel from Ganci AB (a.k.a. MAB) a ride to Bishkek. He told her he would pick them up from the base at 1530 hours. [redacted] drove the group to Bishkek and parked his car on the east side of the Tsum on Shapokova Street at approximately 1610 hours. All of the passengers exited the car and agreed to meet near the car at 1700 hours. At 1715 hours, everyone but VICTIM met near [redacted] car. VICTIM's co-workers called her cell, number [redacted], which returned no pertinent information. Phone analysis indicated at 1735 hours, VICTIM's phone was near the East Bus Station and at 1907 hours, the phone was in the area of "Tunguch", but there was no answer. The group went to the Tsum to look for VICTIM, but could not find her. At approximately 2000 hours, the group went back to the base. During the course of the investigation, it was discovered VICTIM entered the Tsum at 1615 hours with her co-worker, BARNES. They separated on the second floor, which the MVD confirmed by surveillance video. BARNES went up to the fourth floor, while VICTIM remained on the second floor, where she bought a bracelet. The video camera showed VICTIM went down to the first floor at 1618 hours and bought lipstick at a cosmetic store named In Style. An In Style sales person, [redacted], born in [redacted] confirmed this. The video camera showed that at 1629 hours, despite of the fact [redacted] van was parked on the east side of the Tsum on Shapokova Street, VICTIM left the Tsum through the south central exit located on Chui Prospect. Analysis of calls made on and to VICTIM's cell phone [redacted] indicated her cell phone was last near the East Bus Station. People near the East Bus Station were questioned. [redacted], born in [redacted] who worked as an operator of a telephone station at the cross roads of [redacted] said on 5 Sep 06, at approximately 1800 hours, a woman approached her who matched VICTIM's description. The woman asked in Russian if she could make a call to the cell phone out of that telephone station. She also offered to pay by Euros. After she received a negative answer from [redacted] she headed toward the café Almalulu on Osmonkulova Street. Freelance drivers, parked on the corner of Jubek -Julu and Osmonkulova Streets, were questioned. It was learned that on 6 Sep 06, a driver [redacted], who drove a white in color automobile, license plate [redacted] told the other drivers he took a female foreigner to the intersection of Kievskaya and Togolok-Moldo Street on 5 Sep 06. The female showed him an address where to take her in her notebook. It was later determined that the driver was [redacted] born in [redacted]. He stated he was a freelance driver on a car [redacted], license plate [redacted]. He said he did not recognize VICTIM from the photos shown to him. He did drive some foreigners to that address, but there were two people: a man and a woman. This took place around 20 Aug 06. Residents of [redacted] areas, freelance drivers, taxi drivers as well as administration and personnel of Promzona Night Club, were interviewed. The waitresses, [redacted], born in [redacted] and [redacted], born in [redacted] stated VICTIM came to the club with her friends from time to time, and the last time she was in the club was approximately 3 weeks prior.

After the police reviewed the video tape from the Tsum, the police noticed a man, who was near VICTIM at the Tsum. He appeared to be European and was approximately 35-years-old. He wore a gray-blue

shirt, black pants, and had sunglasses on his forehead. It was clear on the tape the man waited for VICTIM on the first floor near the exit from the escalator and later when she bought lipstick on the first floor at the shop In Style. The man remained in the Tsum until 1654 hours. He left the Tsum through the main exit. The police saw him in the video on an escalator on his way to the third floor at 1632 hours; at 1635 hours, he was on the third floor at the store "ZIGZAG," and at 1651 hours, he was on the second floor, at the escalator exit.

On 8 Sep 06, at 2345 hours [REDACTED] called the Issik-Aktinsky Police Station. The operational, investigation police crew responded to the call, and went to the indicated address. They found a bum-looking woman, wearing blue jeans and a brown shirt. She was approximately 35-years-old and did not speak Russian. She was brought to the Regional Police Department of MVD in order to establish her identification and be provided a medical examination. Based on her testimony and with the help of an investigator, who was able to communicate a little in English, police determined it was VICTIM, born in [REDACTED] a US Citizen, born in [REDACTED]. VICTIM was taken to Issik-Aktinsky hospital, where she was medically examined. At the time of her medical examination, she did not have any health complaints. During questioning, VICTIM said on 5 Sep 06, at approximately 1500 hours, she was on a shopping trip to the Tsum. At one moment she was near the main entrance to Tsum. At that time, her co-workers went up the escalator to shop. An unknown woman approached her and asked for help. A woman gave her a message on a small piece of paper, pulled VICTIM away from the main Tsum entrance, placed a hard object into VICTIM's jeans pocket and told her it was an explosive. After that, the woman led VICTIM along the street in an unknown direction. Along the way, the woman gave VICTIM pieces of paper, directing her where to go. The woman disappeared from time to time, so VICTIM did not see her. After some time they approached a white car, supposedly a VW Mini Van, and a man forced VICTIM into the car. They drove for a long time in an unknown direction. After arriving at an unknown destination, two men and a woman put VICTIM into a dark compartment then took her \$300 dollars and a chain with a cross. [REDACTED]

[REDACTED] They told VICTIM what they wanted. VICTIM said there was no physical contact between her and the SUBJECTs. For the time she was there, the SUBJECTs gave her notes in English on pieces of paper. After 3 days, when one of the SUBJECTs brought her food, she hit him with some kind of hard object in the lower abdomen area and ran away in an unknown direction. She reached a forest and lay down on the ground. She stayed there for 2 hours listening to determine whether she was still being chased. Then she reached a house, knocked, and asked for help. [REDACTED]

[REDACTED]

[REDACTED]

Afterwards, representatives of the US Embassy and MAB, KG, took VICTIM away.

Date: 17 Oct 06

Agent(s): SA [redacted]

On 17 Oct 06, SA [redacted] received a request via AFOSI Form 158, Investigative Communications, signed by SA [redacted] AFOSI DET 2404, MAB, KGKG, to forensically review a compact disk (marked "VICTIM 00981062501616") containing video footage of the initial interview of VICTIM by local authorities. The actual video footage was about 4.5 to 5 minutes in length. (Note: Optimally, this type of review should be made when the victim has been undressed and cleaned, which was not the case in the video. However, a general assessment can still be made. SA [redacted] had no knowledge of VICTIM's prior appearance, so no comparisons were made between her appearance in the video and her appearance before her alleged abduction.)

VICTIM appeared to be coherent and alert of her surroundings. [redacted]

16 Sep 2006

On the morning of 9 September 2006 about 0100 in the morning Major [] from OSI and Major [] from Security Forces came into the med tent. They stated that they may have found Major Metzger [].

[] We were asked to keep this information quiet as they did not have official confirmation that this was her as of yet. They asked for one of us medics to ride along with them to provide medical support to Major Metzger if it was needed. My shift leader TSgt [] and I quickly discussed it and it was decided that I would go as Major Metzger may be more comfortable with a female medic. I grabbed the primary response bag out of Medic 1; this bag has all of our dressing supplies and our IV supplies. I then got into a vehicle with Major [] and Major []. We proceeded to the new PAX terminal to brief command of the current situation. After picking up another vehicle we left Manas AB through Echo 1. About 20 minutes into our drive Major [] received a phone call stating that someone had talked to Major Metzger and she had identified herself. I then placed a phone call to Colonel [] the 376 EMDG commander to apprise him of the situation. I then placed a phone call to my shift leader TSgt [] to tell that it was indeed Major Metzger and to start spinning up the hospital to receive a patient and that I would call him as soon as I had hands on and could get a first set of vitals. We drove through Bishkek and stopped outside a building which appeared to be a casino to me. Here I was asked to stay in the vehicle while Major [] and Major [] got out of the vehicle to meet their contact. They got back in the vehicle and we drove a little longer. I remember going past the white house and the building where the guards stand under the flag. We stopped shortly after that in a dark parking area. There we met up with some local people who appeared to be well off as they were dressed in nice clothing and there was a light in color luxury car and a black Mercedes. We followed the first car down some dark roads. The black Mercedes pulled up close to our rear bumper and stayed there until we got to our final destination. We stopped in front of what looked like a small medical clinic. I was told to stay in the vehicle until they could get a handle on the situation. After a few short moments I was told to get out and bring my medical bag with me. We had to run up a flight of stairs to get into the building. It seemed to me that as I was running up the stairs I was getting jostled by locals who wanted to get in the building faster than me. When I turned the corner into the building all I could see was a large group of men standing in a semi-circle facing something I couldn't see. I took that something as Major Metzger. As I approached the group Major [] was saying "medic, medic, medic" to try and get a path cleared for me. As I was trying to get through the crowd I noticed a couple of things that stood out as kind of odd to me. 1. I actually had to physically push people to get them out of my way. 2. I saw no female police officers or female medical staff at that time. 3. There was a man in the back of the group that was video recording everything that was going on. []

[redacted] The whole time I was working on her I had the oddest feeling that everyone one was closing in on me. [redacted]

[redacted] one of the guys from our group came in and picked her up and started towards the car. When I turned to join them on the run back to the cars I noticed for the first time two females in what looked to be nursing uniforms standing on the outskirts of the crowd. As I was trying to get out of the building a large group of people put themselves between me and the rest of the group. It almost seemed as if they wanted to slow us down. I turned the corner to head out into the street to run to my vehicle when I heard someone holler "Press: stop him!" When I looked up it looked like the press guy had put himself in the way of us loading Major Metzger into the car. Major [redacted] and others chased him down the road to get him to stop recording. We loaded Major Metzger into our vehicle with Major Metzger lying down in the rear. Major [redacted] told us that there was press in the area and to cover Major Metzger's face. I lied across her; wrapping my arms around her head to cover her face. [redacted]

[redacted] After a few minutes I was told that it was ok to sit up. [redacted]

IV. STATEMENT

I was on duty the night Major Metzger was brought into the clinic at Manas AFB in Krygzstan. I was working the day prior during the normal clinic hours of 0700 to 1700 and was "on call" for all emergencies the night that Major Metzger was brought to the clinic. I personally was called on my cell phone at approx 0100-0200 in the morning by Tech Serg [REDACTED] and was told that Major Metzger was "found" and will be coming to the clinic for an evaluation. I was in my dorm room and came to the clinic as soon as I was dressed. I arrived in the clinic in less than 10 min. When I arrived Serg [REDACTED] was at the desk and he said Maj Metzger was found and will be arriving at the clinic soon. Serg [REDACTED] said that Serg [REDACTED] went with "some OSI agents" to pick her up from some local hospital. At this point I called the on call team that I would need to see a potential trauma patient that would be arriving soon. I called Capt [REDACTED] the on call nurse and Tech Serg [REDACTED] the medical technician. I also called the lab technician in case blood work would be needed. I then called Lt Col [REDACTED] (SGH of the medical center) to let him know that Major Metzger would be arriving. While the medical team was arriving I went into the examination room where we see patient [REDACTED] to start preparing for a potential trauma patient. After approx 15 to 20 minutes I received the initial report [REDACTED]

When the interview was completed, a convoy of vehicle was assembled outside the trailer MAJ Metzger was in. She was escorted to the vehicle by the Recovery NCO. I traveled to the flight line in a trailing vehicle. The convoy re-assembled at the tail of C17 and the party with baggage was loaded on the aircraft. The Recovery party consisted of MAJ Metzger, the Recovery NCO, the outgoing hospital commander (there at the direction of the recovery NCO who reported that an 06 was supposed to be), and myself.

We sat on the starboard side at the front of the aircraft at the front. [redacted]

The flight was uneventfully medically and upon landing I met LTC [redacted] at the ramp of the aircraft and turned MAJ Metzger over to him. [redacted]

I last saw MAJ Metzger a couple of hours later as she was being moved around the CTF 76 compound. She did not see me nor did I attempt to speak to her. I have not spoken to MAJ Metzger since the 9th of August and am not aware that she had tried to contact me. [redacted] //END. [redacted]

Questions from Interview with SA [redacted] on 27 Nov 06 at 0830L

1. How long have you known Maj Jill Metzger and in what capacity?

I've known Jill for approx 6-7 years. We were both assigned to Spangdahlem AB, Germany together...when she first arrived at Spang, she was a section commander, just prior to my departure from Spang, around spring 2001, she moved to the MPF as the DPMA section chief...I was the MPF Commander. I PCS'd to Ramstein in the Summer of 2001 and she remained at Spangdahlem for a while longer...she then PCS'd to Ramstein on the USAFE/A1 staff to work in the Personnel Readiness branch. I worked first as the Deputy Chief of USAFE Protocol and then moved over as the Deputy Chief, Senior Officer Matters on the USAFE/A1 staff. We were peers on the staff...then I went to ACSC, followed by my command tour here beginning Jun 05...Jill PCS'd to here as the MPF Commander in May 2005

2. What is my opinion of her performance as the PERSCO team chief?

All reports from her supervisors there in the deployed AOR were favorable and that the team as a whole did an excellent job. She and I did have one difference of opinion when one of her team members needed to come home for a family emergency with the member's dependent children...She would not release the member even though the emergency had been validated. I addressed the issue with her leadership and my wing senior leadership and we resolved the issue and got the member back home ASAP.

3. Why did she change jobs? Maj Metzger's move to the manpower office was already planned prior to her deployment. She and Maj [redacted] were supposed to swap positions around the 18 month point so that they could have leadership experience as a flight commander in both the MPF and the manpower flight. Maj [redacted] moved over to the MPF Commander position earlier than planned because the interim MPF Commander, Capt [redacted] was hired to be the new MSG Exec when Lt [redacted] PCS'd and I did not have any one else to cover leadership duties except for a 2nd Lt...Upon Maj Metzger's return and due to the reintegration necessary after the deployment, she is currently not in a leadership position, she is a manpower officer in the manpower flight.

4. What was Maj Metzger's reaction to the change in positions? She was eager to learn another aspect of our career field..she was looking forward to the new challenge and thought the change would be a fun experience.

5. Do we associate/socialize outside of work? No, except for squadron holiday parties, farewells, squadron picnics.

6. What was Maj Metzger's demeanor prior to deploying? Was she happy/excited about the deployment? Maj Metzger accepted the fact that she had a responsibility to deploy. The timing was not great for some personal commitments that she had. She didn't want to miss the Air Force Marathon because she had never missed one...and originally, her projected return date when we received the tasking and she first deployed would not set

pg 3 of 5

her back in time to run in the marathon..she said that missing the marathon was harder than the fact that she was going to move up her [redacted]. She did not have a definitive [redacted] when she first found out that she was going to deploy. She eventually said that they were going to [redacted] April, just prior to the departure date for the deployment and then have [redacted] when she returned from the deployment.

7. Any disciplinary issues prior to deployment?

8. Do you have any other information relevant to this case/situation?

Maj Metzger and I have talked frequently...pretty much almost every day since her return to duty on or about 7 Oct 06...The first week she was back at the office, I went by her office and we talked for an hour or more, practically every day...some days we talked for 2 or more hours at a time. On or about 9 Oct 06, I was at her office, asked her how she was doing that day which was my standard question. She said that she has so many thoughts and wanted to talk so many things. She said that she appreciated the fact that I listened to her and that since I was a woman and it made it easier for her to talk to me.

[redacted] She said that she knew she made bad judgment decisions and left her group, went to the underground marketplace, because that was where all the good deals were for unique gifts to bring back for friends and family and everyone was always impressed with her ability to find those unique gifts. She did not make any mention of the process or what happened as far as the alleged kidnapping, bomb in the pocket, etc.. [redacted]

[redacted] I think that was pretty much the conversation that afternoon...She jumped all over the map as she was relaying the stories.

V. STATEMENT

I am [redacted] deployed to Camp 93, Afghanistan from about 3 May 2006 to 17 Sept 2006. I was ~~with~~ in charge of the laboratory of a one day shop. On the night of Maj (?) Metzger's recovery I am not sure of the date I was recalled to the EMEDS to prepare for his arrival. Or [redacted] was in charge of her medical care and I was there to assist with any laboratory procedures and any other requests as directed by the doctor when Metzger arrived at the EMEDS.

Before the whole incident, I did not personally know Metzger. I had seen her before walking around camp, and once or twice in the admin tent.

* NOTE: Translated as is. This difference in some details compare to our accounts (interpreter)

On September 6th, 2006, the Airbase Gansi representatives, and the US Embassy security department employee. (b)(6) (b)(7)(C)

(b)(6) (b)(7)(C) as well as a security deputy adviser. (b)(6) (b)(7)(C) requested the Sverdlovsky Police Department of Internal Affairs (MVD) to take action in searching for missing US Army soldier Jill Metzger (born in 1973), and stationed at the Airbase Gansi.

Matter on this case registered in the book of crimes of Sverdlovsky MVD Registration # 4489 on 06.09.2006. The investigation initiated (case # 396/06)

During course of investigation, was questioned (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) internationally passage. He works as a freelance driver, using his own van, Mercedes Benz 212 B Sprinter; license plate (b)(6) (b)(7)(C)

He stated that on September 5th, 2006 approximately at 14:00, he received a telephone call from Jill Metzger onto his cell. She asked him to give her and a group of military personal from Gansi a ride to Bishkek. He said that he will come to pick them up from the base at 15:30.

(b)(6) (b)(7)(C) drove to Bishkek Jill with the group, and parked his car near ZUM "Aichurek" on Shapokova Street, from east side of ZUM at 16:10. All the passengers left the car and agreed to meet near the car at 17:00. All passengers went to ZUM.

At 17:15 the whole group, but J. Metzger, met near (b)(6) (b)(7)(C) car. Jill's co-workers were calling to Jill's number 0517-72-05-54. However, at 17:35 the phone call was located near the East bus station and at 19:07 in the area of "Tunguch", but there were no answer. After placing these calls, her cell got switched off. Waiting a bit longer, co-workers went to ZUM to look for Jill, but without positive result. At approximately 20:00 the group went back to the base.

During the course of investigation, it was found that J. Metzger entered ZUM at 16:15 jointly with the co-worker, Sergeant Barnes. They separated on the second floor, which was confirmed by a video camera record. It had been found that Sergeant Barnes in fact came up to the 4th. floor, while J. Metzger had remained on the second floor, where she bought a bracelet.

The video camera also showed that Metzger came down to the first floor at 16:18 and bought a lipstick in cosmetic store "In style". This was confirmed by a sales person of this store (b)(6) (b)(7)(C)

(b)(6) (b)(7)(C)

The video camera showed that at 16:29 - despite of the fact that the car was parked on Shapokova St., (East side) - Metzger left ZUM through the South central exit i.e. to the South side of Chui Prospect.

Analysis of calls made on/to Metzger cell phone (# 0517-720-554) indicated that last location of her cell was in the area of East bus station.

Some people - who work around the bus station-, were questioned.

(b)(6) (b)(7)(C) who works as an operator of a telephone station in a cross roads of Jubek-Julu and Osmonkulova Streets, stated that on September 5th, 2006 approximately at 18:00 she was approached by a woman with similar to Jill Metzger description, and asked in Russian if she could make a call to the cell phone out of that telephone station. She also offered to pay by Euros. After she received a negative answer from (b)(6) (b)(7)(C) she headed toward the café "Almalulu", situated on Osmonkulova Street.

Also, we questioned freelance drivers, parked on the corner of Jubek -Julu and Osmonkulova Streets, and learned that on September 6th, 2006 the driver (b)(6) (b)(7)(C) driving white color auto (b)(6) (b)(7)(C) was chatting with the other drivers, saying that on September 5th, he took a foreign passenger - a woman - and drove her to the intersection of Kievskaya and Togolok - Moldo. A woman showed him an address where to drive her in her note book.

Later it was determine that mentioned above driver was (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) He stated that he is a freelance driver on a car (b)(6) (b)(7)(C) license plate (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) He stated that he did not recognized Jill Metzger on the photo, which was shown to him, and that in fact he drove foreigners to the above address, but there were two people: a man and a woman, and it was around 20th of August.

We also questioned residence of "Tunguch-1" and "Tunguch-2" areas, freelance drivers (taxi drivers as well as administration and a personal of a night club PROMZONA).

The waitresses: (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) stated that Metzger (b)(6) (b)(7)(C) were coming to the club with her friends from time to time, and that last time she was in the club approximately 3 weeks ago.

Studying thoroughly the video tape from ZUM on the day of September 5th, we noticed a man, which had been cruising next to Metzger. He was supposedly a European type, approximately 35 years old, with alopecia. He was wearing a gray-blue shirt, black pants with a sun glasses on his forehead. It is clear visible on the tape that the man was awaiting Metzger on the first floor near the exit from the excavator, and later, when she was buying a lipstick on the first floor at the shop "In Style" - he was as close as 3 meters from her.

The man remained in ZUM till 16:54. He left ZUM through the main exit. He had been seen on a video tape on escalator on his way to the 3d floor at 16:32; at 16:35 – 3d floor, store "ZIGZAG"; and at 16:51 on the 2d floor, escalator exit.

On September 8th, at 23:45 [§ 87(2)(b)] called to the Issik-Aktinsky Police Station. The operational - investigation police crew responded to the call, and went to the indicated address. They found a bum-looking woman, wearing a blue jeans and a brown shirt. She was approximately 35 years old and did not speak Russian. She was brought to the Regional Police Department of MVD in order to establish her identification and provide medical examination. Based on her testimony and with the help of an investigator - who was able to communicate a bit in English – it had been determined that she is Jill Metzger, born in [§ 87(2)(b)] a US Citizen, born in San Angelo, TX, currently stationed and leaving in Ganci.

Metzger was brought to Issik-Atinsky hospital, where she got medically examined. At the moment of her medical examination, she did not have any health complaints.

During questioning, it had been determined that on September 5th, approximately at 15:00 she was on a shopping trip to ZUM "Aichurek". At one moment she was along near the main entrance to the ZUM. At that time her co-workers went up on escalator for shopping. At that moment she was approached by unknown woman and asked for help. A woman gave her text on a small piece of paper, and pulled Metzger away from the main ZUM's entrance, placing into pocket of Metzger's jeans some kind of hard object, saying that this is an explosive. After that that woman leaded Metzger along the street in unknown direction. Along the way, that woman was given Jill pieces of papers, directing her where to go. A woman was disappearing from time to time, so Jill did not see her. After some time they approached white car, supposedly VW Mini Van, and a man forced Metzger into that car.

After that they drove for a long time in unknown direction. Having arrived to unknown destination, two men and a woman put Metzger into a dark compartment, taken from her \$ 300 dollars and a chain with a cross. They wanted to take her gold ring with a diamond, [§ 87(2)(b)]

Merzger asked them what do they want, but they did not tell her. Metzger said that there was no physical contact between her and her abductors. For all time she was there, her abductor was given her notes in English on pieces of paper.

After 3 days, when one of the guys brought her food, she hit him with the some kind of hard object to the area of lower abdomen and run away to unknown direction. She reached a forest and lay down on the ground, where she spent 2 hours, listening if she was chased. Then she reached the first house and knocked, asking for help.

[§ 87(2)(b)]

[Redacted]

After that representatives of the US Embassy and the Air base Gansi took Metzger away.
